WELCOME TO THE Eastern Wheatbelt

The 20 Shires of the Eastern Wheatbelt invite you to stay a while and experience our country hospitality, natural attractions, history, festivals and events. With more self-drive trails than you will have time to traverse, we suggest you take the time to explore other surprising destinations along the way at a less hurried pace.

HOW TO GET HERE

HIGHWAYS & BYWAYS

A good network of sealed and unsealed roads get you exploring in any direction.

BY RAIL OR COACH

Transwa operates a daily passenger rail service between Perth and Kalgoorlie and coach service from Perth to Hyden/Wave Rock. transwa.wa.gov.au

MERREDIN

Merredin is a regional hub located halfway between Perth and Kalgoorlie and is at the crossroads to several Wheatbelt self-drive trails on sealed roads.

Merredin also acts as a major commercial and retail centre for the Central Eastern Wheatbelt, serving the industrial and retail needs for surrounding Eastern Wheatbelt Shires and is a base for a range of government agencies and services.

With a choice of accommodation, places to eat, a historic theatre and a cinema, Merredin is the ideal stopping place to stay and explore the region.

Merredin is an RV Friendly Town with day parking close to the shopping precinct and an RV overnight stay at Merredin Peak Reserve in a bushland setting.

Take in a live show at the iconic Cummins Theatre, visit the Military and Railway Museums both nestled either side of the newly redeveloped Pioneer Park, or head out to the granite outcrops and enjoy a walking trail with spectacular views.

For maps & guides to plan your Merredin visit, call the Central Wheatbelt Visitor Centre on 9041 1666, email visitor@merredin.wa.gov.au, or visit www.wheatbelttourism.com.

Welcome to Country

FOLLOW THE FOOTSTEPS OF OUR ANCESTORS

A "Welcome to Country" is the unwritten rule that Aboriginal people are still using and have done so for thousands of years. This acknowledgement pays respect to the Traditional Owners, ancestors and the continued cultural, spiritual and customary practices and rights of Aboriginal people. It also provides an increase in awareness and recognition of Australia's Aboriginal peoples and cultures.

The Wheatbelt region is home to three distinct Aboriginal groups: The Njaki Njaki Nyoongar, the Ballardong Nyoongar and the Gubrun, each with traditional Aboriginal cultural governance landscapes that continue to this day. These places have been as much a part of the landscape, entwined with the different geographic areas with ecological distinctions that shape the identity of Aboriginal groups to the spectacular places and scenery.

As a visitor, we ask that you pay respect to the land and the places you choose to visit. We wish you a safe journey as you travel through our lands. Please remember that each step you take today, is in the footprints of our Ancestors.

ANNUAL EVENTS CELEBRATE OUR CULTURE!

Meet the locals and experience country hospitality throughout the year at monthly markets, agricultural shows and field days, theatre productions, live music concerts, drive-in movies, motor sports, bush races and wildflower tours. Australia Day, ANZAC Day and Remembrance Day are celebrated in most regional communities.

Golden Pipeline Heritage Trail

LONGEST FRESH WATER PIPELINE

Interested in engineering? Keen to see wildflowers?
Plan a journey through the wide-open spaces of the Central
and Eastern Wheatbelt as you follow the path of CY O'Connor's
water pipeline scheme constructed over 100 years ago.

Duration: 2 to 4 days

Distance: 560km One Way Perth to Kalgoorlie

Road Conditions: Great Eastern Highway with sealed roads or short stretches of maintained unsealed sections from the highway to the interpretation sites along the way.

Visit the original pump station sites and highlights like the Cunderdin No. 3 Pump Station Museum, the 1968 earthquake interpretive walk trail and memorial sites in Meckering, historical landmarks like the WWII army hospital site at Merredin Peak and relics of the gold rush era at the ghost towns near Southern Cross. Marvel at the size of the wheat silos and large rail yards, which attest to the significance of the surrounding agricultural land.

Visit Charles Gardner Nature Reserve, south of Tammin on route to see Tammin's Hunt's Well. Back in town visit Tammin's Hydrology Model, which demonstrates how salinity is impacting on the Wheatbelt landscape. Don't miss the view from the Kellerberrin Hill lookout as the pipeline takes you past rock water catchments and springtime wildflowers. See a rock wave formation and Charles Hunt's pioneer well at Totadgin Rock and Conservation Park 14kms south of Merredin.

At Merredin Peak, explore the bush walk or rock walk trail to an 1890's rock wall rainwater catchment around the top of the granite outcrop leading to a rock channel and spillway into Railway Dam. Cross the original site of the No. 1 Rabbit Proof Fence at Burracoppin 20km east of Merredin and head north from Carrabin to Westonia where history is preserved in the towns' buildings facades.

Westonia's gold mining and social history is encapsulated in the remarkable Hood-Penn Museum with a mine blast simulation tunnel. A pedestrian access ramp gives you a great view of the Edna May open cut mine 1km north of the town. At Southern Cross take in the Yilgarn History Museum displays and impressive mineral collection.

Travel 50km east to Karalee Rock and reservoir, a remarkable early example of a timber and steel aqueduct water catchment feature with RV camping beneath the eucalypt canopy. Natural history abounds as you continue on through the Great Western Woodlands, stopping at RV campsites in Boorabbin National Park and Boondi Rock and continuing onto Coolgardie and Kalgoorlie.

WHICH PATH WILL YOU TAKE?

Make your journey to Wave Rock an experience to remember. Enjoy country hospitality, natural bushland with wildflowers in season, spectacular night skies and immerse yourself in an agricultural experience.

Duration: 4-5 Days

Distance: 847km

Road Conditions: Sealed

Your Wheatbelt experience begins when you leave Perth on the Brookton Highway, travelling 225km to Corrigin, where you can visit the iconic Dog Cemetery, enjoy the beauty of wildflowers in spring and wander through the Pioneer Museum.

Continue 49km onto Kondinin, taking in the beautiful fauna and flora along the way. Stop and stroll through the community garden and view the creative artworks. Walk the Yeerakine Rock trail to the unique ANZAC light horseman statue, before travelling 27km south towards Kulin, home of the famous Tin Horse Highway, a fun and entertaining drive showcasing imaginative community creations. The Kulin Visitor Discovery Zone gives visitors a sense of the region's history and identity.

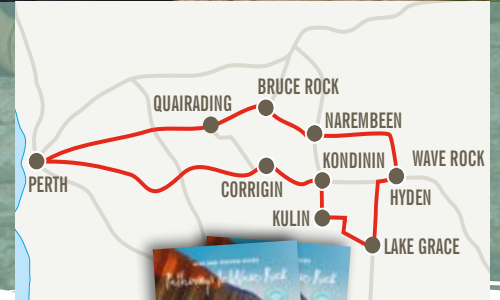

Travel 73km south west to view the mighty salt lake at Lake Grace with its changing colours and take in the atmosphere of an early 20th century hospital, when you visit the only remaining Australian Inland Mission Hospital in the state. A friendly welcome awaits you at the Lake Grace

Visitor Centre. Extend your journey and visit Newdegate, along the FORM Public Silo Trail.

Continue northwards to the town of Hyden, with excellent overnight accommodation, dining and bright starry nights. Spend the following day exploring the internationally famous Wave Rock and surrounding attractions, before continuing 93km on the Mt Walker Road, with its colourful wildflowers, towards Narembeen.

Learn all about farming at the modern, interpretive Grain Discovery Centre, giving an insight into past and present in this typical Wheatbelt town.

Travel 39km to Bruce Rock, with its Amphitheatre and Sculpture Park, memorials to servicemen and fabulous aquatic centre for summer fun. Continue 48km to Kokerbin Rock, a massive monolith with incredible views and a great nature spot. Drive 39km to Quairading, check out 'El Toro', a life-size spanish bull sculpture in the centre of town and explore the amazing nature reserve and Nookaminnie Rock, great for wildflower spotting and watching the Wheatbelt's breathtaking sunsets. Take a leisurely trip back to Perth via the historic town of York.

For more information visit the Pioneers' Pathway website www.pioneerpathway.com.au

Duration: 2 to 5 days

Distance: 292km One Way Perth via Toodyay to Merredin

Road Conditions: Sealed road with some unsealed access sections into nature reserves.

Discover the people who have helped make the Wheatbelt the place it is today. Learn the stories of the men from bushrangers to farmers and pastoralists and how the company that is Australia's largest exporter of grain was started right here in the Wheatbelt of Western Australia. Hear the accounts of the women who were lawyers, nurses, teachers, wives and mothers who conquered, survived and thrived in the harsh conditions of these towns that remain today. Come, take the time, learn the stories and explore the Pioneers' Pathway.

Leave the hustle and bustle of the city behind and follow Pioneers' Pathway Self Drive through the hills to the pretty farming town of Toodyay. Valley views and a patchwork of farmland make this a scenic stop for lunch at a local pub or

riverside picnic spot. Continue north east to Goomalling, crossing the Avon River tributary at Mortlock River - a well-known wildflower stop during spring.

Step back in time at the heritage listed Slaters Homestead 2.5km east of Goomalling. Visit one of the earliest bulk handling wheat bins now housing the Wyalkatchem CBH Museum with heritage machinery and rare tractor displays. Camp at the National Trust's Mangowine Homestead 14kms north of Nungarin. An impressive 1897 steam locomotive, rolling stock and railway history is on display at the Merredin Railway Museum or take in a live show at historic Cummins Theatre.

World War II history comes alive at the Nungarin Heritage Machinery and Army Museum, the Merredin Military Museum and the 2/1st Army General Field Hospital site at Merredin Peak Reserve. Walk the many nature reserves protecting large areas of natural bushland and granite outcrops where

magnificent eucalypt trees dominate the landscape and seasonal wildflowers carpet the forest floor. Meet Rusty the Tin Dog and explore the Tin Dog Creek Walk Trail at Dowerin or other town reserves such as Korrelocking at Wyalkatchem, Eaglestone Rock and Talgamine Reserve at Nungarin and Tamma Parkland and Totadgin Conservation Park near Merredin.

Looking for Accommodation?

There are numerous options for RV's with most towns having caravan parks and RV friendly camp sites, some with facilities and dump points. If you are looking for a bed, there are B & B's, self-contained units, farm stays, motels & hotels.

The Wheatbelt Way

BRIGHT SKIES, BIG HORIZONS

The Wheatbelt Way self-drive trail will lead visitors on an adventurous interpretive journey to the regional communities of Dowerin, Wyalkatchem, Koorda, Bencubbin, Beacon, Westonia, Mukinbudin, Nungarin and Trayning. Experience their natural attractions, history and heritage while offering unique opportunities to stay and experience friendly communities and open landscapes.

For history audios go to the Story Town Podcasts <https://storytowns.com.au/>

Duration: 3 - 5 days or more

Distance: Approximately 900km - 1,000km

Road Conditions: Sealed with stretches of good unsealed road to rock and bushland features.

This journey offers a memorable contrast of open farmlands, large rocky outcrops, with a profusion of bird and animal life. Marvel at the fascinating ways water was collected in the area, from the natural and Aboriginal gnamma holes, the pastoralists and prospectors wells to the water harvested from granite rocks in more recent times.

Depending on seasonal conditions there are carpets of small pink and yellow everlastings and numerous flowering shrubs, hakea, grevillea, wattle and eremophila, senna, dampiera and verticordia. Native orchids can be found, in early spring at the damp base of the granite outcrops while later in the season red bottlebrush and kunzea grow between the cracks.

Bird lovers will also find numerous birds wherever there is water collected on the granite rocks. Some of the rocks are massive with waves, caves and a tunnel. Views from the top are always breathtaking.

A variety of museums include, army, hospital, early farm machinery, the first CBH bulk handling wheatbin and a pioneer town house.

Memorabilia abounds, artworks, murals, sculptures, art deco buildings and a historical retro drive-in cinema, its one big collection of curiosities. Look to the dark night skies for a boundless canopy of jewelled stars.

Wondering where to stay?

There are excellent caravan parks available in most towns with cabin accommodation or camp under the stars at free camping sites with toilets, BBQs and picnic tables. For more personalised service try a country pub or any of the B & B's available (bookings advised).

Great Western Woodlands

NATURAL Salt lakes

NATURE'S DRAINAGE SYSTEMS

The waterways and wetlands of the Wheatbelt have been shaped over millions of years by the climate and geology. The Wheatbelt landscape of today is very flat and the ancient river valleys (paleochannels) have become filled with sediment. When significant rain falls, the salt lakes become fully functional aquatic systems with aquatic flora and fauna usually lying dormant as buried seeds and eggs awaiting the right conditions which attract bird life.

Salt lakes are fragile natural environments and are particularly susceptible to the physical impacts from off-road vehicles, motorcycles and quad bikes. These vehicles should NOT be driven on, or near the lake edge.

Even in their dry state, salt lakes offer stunning landscapes with great photo opportunities.

Colourful Salt Lakes along Pathways to Wave Rock

SALT LAKES IN THE CENTRAL WHEATBELT

Lake Baandee 🏠🚶🏠🚶

A popular ski lake 25km east of Kellerberrin off Great Eastern Highway. The Inland Water Ski Club have created recreation facilities, with swimming and skiing only possible after a significant rain event.

Lake Koorkoordine

Located 6km north of Southern Cross on the Bullfinch Road, this lake is named after the Aboriginal words for meat (Koorkoor) and place of (dine). Due to the water and wind erosion over the years some very interesting miniature caves, cliffs and bays await your discovery.

Statues Lake

Located 10km west of Kondinin on the Corrigin-Kondinin Road. View the eclectic statues created by a local Kondinin farmer Kelly Browning, from star pickets depicting various farming themes – 'waiting for hay', 'clearing the land', 'waiting for rain', 'shearing the sheep' and 'inspecting the crop'.

Walker Lake and Avoca Farm 🚶🏠🚶

Located to the south of the Naremben Townsite is a natural lake with abundant water during winter and into summer. Wander around the lake as you take in this beautiful natural setting. The lake is surrounded by a wheelchair accessible 1.8km pathway, with two outdoor exercise equipment areas for those feeling more energetic.

SALT LAKES IN THE PATHWAYS TO WAVE ROCK

Kondinin Lake

A large lake 5km west of Kondinin and after sufficient rain there is an abundance of water birds and ski and sail boat activities. A colourful interpretation panel provides interesting information on the lake history, geology, flora and fauna.

Lake Grace

Located 10km west of Lake Grace, it comprises two separate water bodies, Lake Grace North and Lake Grace South making it one of WA's biggest inland lakes. Viewed from the visitors' information bay on its western side and the lookout 2km to the west.

Lake King 🏠🚶🏠🚶

Approaching the town of Lake King from the west you are greeted with astounding sights. The lake is scattered with natural scrubland and seasonal wildflowers.

Lake Magic

Situated 1km north of Wave Rock adjacent to Wave Rock Resort. The water in the lake is clear but very salty and the lake base is made of gypsum and is surrounded by beach sand.

Pink Lake

This local phenomenon is located 11km east of Quairading on the Bruce Rock Road. At certain times of the year the south side of the lake is a distinctive pink colour while the north side remains blue. Summer evaporation causes the water level to drop and salt builds up on the old tree stumps and fence posts. It is the salt that causes the pink colour once water returns to the lake.

SALT LAKES IN THE WHEATBELT WAY

Cowcowing Lake

Lies 26km to the north of Wyalkatchem on the Wyalkatchem-Koorda Road. This lake gives it name to the Cowcowing siding and covers an area of 15,000 ha.

Dowerin Lakes

Located 8km south of Dowerin, originally an ephemeral freshwater lake system and site for the original town settlement in 1895. This lake turns pink at certain times of the year and does not disappoint if looking for a pink lake experience closer to Perth.

Lake Askew

Easily accessed along the Beacon- Bencubbin Road, this lake offers magical photography opportunities especially taking in the starstudded night skies.

Lake Brown 🏠🚶🏠🚶

East of Nungarin and located at the base of Eaglestone Rock off Lake Brown South Road. Enjoy great views and amenities at Eaglestone Rock.

Lake Champion 🏠🚶🏠🚶

Located on Stock Road north-east of Nungarin, Lake Champion is a lake which during the wildflower season is sprinkled with pink everlastings. White winged fairy wrens inhabit the sapphire margins of the lake. A BBQ area is available by the lake on the Chandler Nungarin Road.

Lake McDermott 🏠🚶🏠🚶

Located 8km east of Bencubbin, the reserve is a combination of salt lake water system and bushland with wonderful native flora and fauna. The lake is used for skiing, kayaking and paddleboarding after good rains and water levels permit.

Wildflowers

A WHEATBELT WONDER

The south-west of WA (which includes the Eastern Wheatbelt) is the only internationally recognised flora biodiversity hotspot in Australia. The Wheatbelt contains more than 25% of the threatened flora in WA.

The best times to visit for wildflower displays are during July to October (late winter-spring), but remember this spectacular floral event is very much dependent on significant rainfall in late autumn and winter. The cereal crops are also ripening at this time of year with extensive yellow fields of canola.

The wildflower season is one of the Eastern Wheatbelts' most precious natural treasures attracting visitors and special interest groups annually. Woodlands come alive following significant winter rain as annual species including everlastings and orchids produce a sensory spectacular of colour and scent. To appreciate these remarkable displays up close, take the time to visit several of the many nature reserves and walk trails around the towns throughout the region.

Granite outcrops, sand plain country and extensive salt lake systems give rise to a great variety of colourful flowering perennials, trees and shrubs including flora rich species of acacia, eremophila, eucalypts, grevillea and hakea to name a few abundant in these habitats.

For seasonal updates on the best 'wildflower hot spots' visit www.wheatbelttourism.com/wildflowers/current-wildflower-season or to purchase any of several wildflower field guides and identification publications available, contact the Central Wheatbelt Visitor Centre. T: (08) 9041 1666 E: visitor@merredin.wa.gov.au

Granite Outcrops

The granites were formed 2600-2700 million years ago. Rising abruptly from the plains, the exposed rock habitats provide protected microhabitats that collect rainwater where native plants and animals flourish. Aboriginal people maintained a cultural and spiritual connection between the outcrops, waterways and lake systems for tens of thousands of years. The granites provided elements of survival in the form of shelter, food, water, camping, ceremonies, a burial place, rock art and dreaming stories. Early Europeans saw the granites for their rainwater catchment potential and built rock walls and aqueducts to capture rainfall run-off into dams.

DARK SKIES

Add another dimension to your visit and discover the incredibly clear night skies where you can marvel at the brilliance of the spectacular Milky Way!

GRANITE OUTCROPS IN THE CENTRAL WHEATBELT MAP & GUIDE
SEE RELEVANT MAP FOR GRID REFERENCE LOCATIONS (e.g. A7)

Bulgin Rock Reserve A7

Halfway between Cunderdin and Meckering, turn south off the Great Eastern Highway onto Collins Road and right onto Burges Road onto the intersection of Bulgin and Burges Road. A beautiful rocky outcrop to explore with seasonal wildflowers.

Cunderdin Hill B7

Just south of Cunderdin, wind up the hill to this high point for extensive view of farmlands. Ideal spot for spectacular Wheatbelt sunset.

Frog Rock & Dam J6

Situated off Great Eastern Highway 25km south east of Moorine Rock. A small catchment dam is located beneath a large rock with a wave formation.

Karalee Rock & Dam L4

This rock catchment and aqueduct built in 1897 is located 7km off the Great Eastern Highway 50km east of Southern Cross. A natural rock formation adapted to maximise the catchment, delivery and storage of rainwater that was essential in the railway development to the Goldfields.

Kellerberrin Hill D7

Off Great Eastern Highway in Kellerberrin a sealed road takes you to a scenic highpoint with seasonal wildflowers and panoramic view of surrounding countryside from the gazebo.

Keokanie Rock I4 and Karolin Rocks I3

Along the Bodallin North Road at Keokanie is the site of a well dug by Charles Hunts construction party and the rock has interesting formations of weathered granite rock. At the end of Bodallin North Road, Karolin is another interesting rocky outcrop to explore with a well and seasonal wildflowers. Between the two rock sites, there is an old school site to the west just past Corinthia West Road.

Merredin Peak Reserve & Railway Dam F6

Follow the Golden Pipeline signs to Benson Road. This early water catchment scheme provided water for both the town and railway. A rock wall was built around the contours of the peak which led to a 100m channel and into a 25million litre capacity storage dam. Interpretive signage brings the history of the water pipeline alive along two walk trails.

Totadgin Conservation Park & Hunts Well F6

Located 14km south of Merredin on the Bruce Rock Road. Two entries to carparks, one for walk trail and early surveyor C. Hunt's water wells and one with wheelchair access to the rock wave formation.

Yorkrakine Rock C5

Situated 26km north of Tammin this spectacular outcrop rises 341m. A good access road to the base of the rock which is surrounded by largely untouched York gum and Jam wattle woodland. One of few remnant tracts of vegetation being an important haven for important flora and fauna.

GRANITE OUTCROPS IN THE PATHWAYS TO WAVE ROCK
SEE RELEVANT MAP FOR GRID REFERENCE LOCATIONS (e.g. J5)

Anderson Rock Reserve, Twine Reserve & Gibb Rock J5

These three outcrops are all located east of the Hyden-Mt Walker Road with seasonal wildflowers, scenic points and a gnamma hole at Anderson Rock.

Hidden Hollow & Roe Dam J5

Hidden Hollow is a picturesque granite outcrop with walk trails and abundant flora and fauna. Roe Dam is an early water catchment and a pleasant picnic or BBQ site with toilets.

Bruce's Rock F3

Situated in a nature reserve 2km east of the townsite of Bruce Rock on the Bruce Rock East Road. There are two pioneer wells located at the picnic site and good walks are to be enjoyed over the rock outcrop.

Buckleys Breakaway I7

Located 70km east of Kulin, off the Kulin-Holt Rock Road, the breakaway is a picturesque landform where erosion has cut through the orange laterite and formed spectacular white cliffs and gullies from the underlying clay. The gully is dominated by Cypress Pine, Blue Mallet and Box Poison. At the top of the "breakaway" there is a variety of interesting vegetation.

Gorge Rock E6

Located 20km south east of Corrigin, enjoy the short walk through picturesque bushland to reach the natural rock pool, once the local swimming hole, before an Olympic pool was constructed.

Jilakin Rock & Jilakin Lake G8

Follow the Tin Horse Highway 20km east of Kulin on Kulin-Holt Rock Road, the site boasts the most isolated known stand of Jarrah growing 150km from the SW Jarrah tree belt, surviving on the water runoff and quarry soils at the base of the rock. An easy climb to the top provides spectacular views of Jilakin Lake and surrounding Wheatbelt.

Kokerbin Rock D3

Situated 40km west of Bruce Rock, this impressive outcrop is Australia's third largest monolith. Explore the natural bush tracks to discover Dog Rocks, a wave wall, caves and panoramic views.

Kumminin Rock F9

South east of Bruce Rock on Bruce Rock - Cumminin Road, from the car park you can explore the old school site of this early farming community or take the walk trail to the rock.

Kwolyin Camp & Coarin Rock D3

Situated 9km south east of Kokerbin Rock, a pleasant campsite amongst pristine bushland and sandalwood trees. Take a stroll along bush trails or absorb the history of the old Kwolyin town site along an interpretive pioneer trail. A popular RV camp site with campers kitchen.

Coarin Rock is under Dept. Park & Wildlife, no dogs allowed. Facilities are at Kwolyin Camp.

Toapin Weir & Rock Catchment B4

An easy breezy drive 8km north west of the Quairading town site. A water reservoir with a rock climb to the top for a picturesque view of the surrounding countryside.

Wave Rock & Hippos Yawn, Hyden J6

Located 4km east of Hyden on the Wave Rock Road. Believed to have formed over 2,700 million years ago, "the wave" stands an impressive 14m high and 110m long. It was formed by gradual erosion of the softer rock over many centuries. Carbonates and iron hydroxide caused by rain washing down the wave face form the vertical colours including greys, oranges and yellows.

The Humps & Mulka's Cave J5

Located 16km north of Wave Rock, its best-known feature is Mulka's Cave which holds one of the most significant Aboriginal rock art sites in WA. Two excellent walking trails and a gnamma hole.

Yeerakine Rock G7

Situated 12km south of Kondinin on Sloan Road. Enjoy expansive views from the summit and appreciate the workmanship of the rock catchment

established in 1927 to provide water for Kondinin. To commemorate the ANZAC centenary, a Light Horse Memorial silhouette statue has been erected on the rock which makes an amazing backdrop to the moving ANZAC Day dawn service held annually at Yeerakine Rock.

GRANITE OUTCROPS IN THE WHEATBELT WAY

SEE RELEVANT MAP FOR GRID REFERENCE LOCATIONS (E.G. J8)

Baladjie Rock J8

This extensive granite outcrop is in attractive woodland on the Koorda-Bullfinch Road 42km north east of Westonia. Climb the main rock for spectacular views of the nearby Baladjie Lake system and surrounding landscape.

Beringbooding Rock H6

Located 65km north east of Mukinbudin, this site has the largest rock water catchment concrete tank in Australia. Beringbooding has an amazing balancing boulder, a huge gnamma hole and the Kalamaia Tribes paintings of hands in a cave at the rear of the rock. Two early pioneer wells are nearby.

Billiburning Rock & Reserve E4

This outcrop 35km north of Beacon provides excellent views of cropping and pastoral country. A pioneer well and gnamma hole are nearby.

Billyacatting Hill & Reserve F9

Located 9km north of Kununoppin this large granite outcrop has two interpreted walk trails, one loop trail around base of the rock and another to the peak for amazing views.

Danberrin Rock F10

A pleasant drive 12km south of Nungarin on the Danberrin Road and turn right into Baird Road.

Datjoin Rock & Datjoin Well F5

Travel 18km east of Beacon on the Burakin-Wialki Road to the pioneer well and camping area. Also known as "Brockman's Hide Out" where Brockman, his wife and twelve children took cover under these rock formations when he broke parole and was on the run from police in the 1960s. A narrow track entrance. No RV/caravan access.

Eaglestone Rock & Lake Brown G9

A spectacular natural granite tor and cave formation 20km north east of Nungarin with access off Lake Brown-South Road. Enjoy great views over Lake Brown to the south. A popular spot for rock climbing clubs.

Elachbutting Rock I6

Located 100km north of Westonia or 75km north east of Mukinbudin on the Echo Valley Elachbutting Road. The name Elachbutting means "big thing standing", appropriate for a prominent landmark with excellent views from the top. It has two spectacular colourful waves, a 40m tunnel "Monty's Pass" caused by a rockslide and a large acoustic cave named "King's Cave".

Marshall Rock E8

Located 5km south east of Bencubbin on Marshall Rock South Road, taking in 360° views of the surrounding cropping land from the top. Nearby, the Pergandes sheep yards are constructed from local granite slabs not far from the remains of an original settler's homestead.

Mollerin Rock D6

Located 44km north of Koorda on the Kulja Mollerin Rock Road. Beautiful panoramic views from top of the rock.

Newcarlbeon Rock C7

Located 21km north west of Koorda on Newcarlbeon Road. East of the campsite you will find the Newcarlbeon Tank along a walk trail.

Sandford Rocks Nature Reserve J10

Located 10km north east of Westonia along Boodarockin Road, this reserve protects 806ha of granite outcrop with rock pools, wildflowers, natural woodland and a bird hide.

Talgomine Reserve G10

Located 12km east of Nungarin, a large open rock area with picturesque valley between rocks.

Waddouring Dam Reserve E8

Located 14km south of Bencubbin this water reserve is a combination of granite outcrops and bushland, perfect for hiking, birdwatching and seasonal wildflowers. Paddle water sports only, jet skis and motorised boats are not permitted.

Weira Gnamma Reserve H8

Located 13km east of Mukinbudin with picturesque limestone breakaway with a rock gnamma hole. Look out for seasonal wildflowers and native fauna along the bush trail.

HELENA AND AURORA RANGE CONSERVATION PARK

This special place in the Great Western Woodlands is known as Bungalbin. It is situated 100km north of Southern Cross, adjacent to the Mount Manning Range Nature Reserve (now with National Park status, to be included as part of the proposed Helena Aurora National Park). Bungalbin comes from the Kalamaia language of the Kalamaia Kapurn people, Traditional Owners of this country. Explorer Alexander Forrest named the range after Helena Aurora Monger, the daughter of an early settler John Monger.

The range is 704m above sea level and 200m above the surrounding plain. It is the highest range for hundreds of kilometres in any direction. The range twists and turns for 10km and is made up of distinctive Banded Ironstone Formation (BIF) outcropping. Be uplifted by the spectacular scenery, ancient rocks that form outcrops, overhangs, rock faces and caves plus remarkable flora and birds especially in spring.

The track to the ranges from Koolyanobbing (60km north of Southern Cross), is called the Mt Dimer Track, which is 4WD only and road conditions vary. There are no facilities at the ranges, please take plenty of food and water and take your rubbish out with you – take only photos, leave only footprints.

Narembreen - Together we grow

Located strategically between Wave Rock and the Great Eastern Highway and only 286km east of Perth, Narembreen is predominantly an agricultural town which offers vibrant scenery that reflects Australia's true farming lifestyle.

The Grain Discovery Centre, a modern interpretive museum, tells the story of WA's grain industry from the paddock to the plate. During the spring and autumn months Wadderin wildlife night tours on the electric bus within an enclosed wildlife sanctuary will delight all ages.

Nature enthusiasts will appreciate the undisturbed beauty of the many stunning reserves with nature trails that take in tall salmon gums, native animals and during spring – splendid wildflowers. Attractions include Roe Lookout, Roe Dam and Hidden Hollow.

Pick up a bargain as you wander through the Narembreen Community Shed which features local craft works created by talented local residents.

Narembreen offers top class facilities including a supermarket, hotel, motel, doctor and hospital. The RV Friendly Caravan Park is the perfect spot to stop, offering powered sites, modern cabins, ablution block and BBQ.

Shire of Yilgarn - "Visit the Southern Cross Skies"

Southern Cross ✦ Bullfinch ✦ Bodallin ✦ Marvel Loch ✦ Moorine Rock

Located 368km east of Perth and 225km west of Kalgoorlie, Southern Cross, the hub of the Shire of Yilgarn is often referred to as the gateway to the Goldfields or alternatively the gateway to the Wheatbelt depending on which way you are travelling along the Great Eastern Highway.

The Shire motto, "Visit the Southern Cross Skies", invites you to visit and experience our amazing night skies which have to be seen to be believed! Named after the constellation that guided the founders in 1888, today all the streets in Southern Cross are named after stars and constellations.

The gold prospecting history of the region is richly displayed at the local museum which is situated in the building that was originally the first courthouse built east of York in 1892. Agricultural displays also round out the history of the area with both farming and mining being the main industries.

Explore the rich history of the region and enjoy the modern facilities provided, including clean, modern amenities, an outdoor gym, dog exercise park and free wifi in the main town site.
